

**Invitation from the Chair  
PDD Safety Standards Consultation - Phase Two**

June 14, 2016

On behalf of all Consultation Team members, I am pleased to invite you to participate in Phase Two of the PDD Safety Standards Consultation. We are asking for your input on our ideas to support individuals with developmental disabilities to live with dignity and opportunity in the community, while recognizing and respecting their need for safe, healthy and supported lives.

Our ideas are in the areas of reviewing the PDD program to enable safer lives in community for individuals with developmental disabilities, training and education for staff working with individuals with developmental disabilities, accreditation standards for community service providers and interpretation of Alberta safety codes.

Please visit [humanservices.alberta.ca/pddconsultation](http://humanservices.alberta.ca/pddconsultation) to learn how you can participate - by filling out a questionnaire or tuning into an interactive webinar. It's important that we hear the opinions of Albertans with developmental disabilities and others plays a role in supporting their safety and inclusion. Our consultation will close on July 6, 2016. We look forward to hearing your input!

John te Linde, Chair, PDD Safety Standards Consultation Team
