

# Career Corner

**"Love the trees until their leaves fall off, then encourage them to try again next year."**

## **Recognition goes to the following people for giving special effort...**

On behalf of Career and the Ladies of Sacramento, I want to tell you how much we appreciate your dedication and your caring approach for MDA, CH, and GC. I admire your work ethic and perseverance, even in the face of recent obstacles.

Thank you for all you do. Danielle

I would like to acknowledge all of the career relief support that Emily Porter provided at the South Hampton Home over the past six months. She always seems to be available whenever she is needed which decreases the amount of relief staff we need there but most importantly the consistency she provides the clients there. Bob

Recognition goes to George Adams at Fallswater for always assisting Career relief staff with the clients there. Danny

## **Welcome**

**We are glad to have you working with us as part of our Career Services Team!**

This past July Tamara Shaw left Career Services to return to Prince George, British Columbia where she felt most at home. We wish her well.

We are very pleased to welcome Wes Hunter as the new Career Coordinator. While Wes is new to the Coordinator position he is certainly not new to the Agency having been here now for 15 years. During his time here he has worked in a variety of positions including as a Residential worker, Home Supervisor, Career Supervisor, Outreach Consultant and Support Approach Consultant. Most recently Wes took on the role of Accreditation Lead (title) He comes to us with a variety of experiences and skills to share with Career Services and we look forward to his input and ideas as Career continues to move in the direction of increasing employment and volunteer opportunities for clients and creating recreation groups.

"Summer is already better, but the best is autumn. It is mature, reasonable and serious, it glows moderately and not frivolously ... It cools down, clears up, makes you reasonable ..."

"Autumn begins with a subtle change in the light, with skies a deeper blue, and nights that become suddenly clear and chilled. The season comes full with the first frost, the disappearance of migrant birds, and the harvesting of the season's last crops."
